About Me

I am Mir Mohammed, a Computer Science graduate from the University of Sulaimani. For the past three years, I have worked at a media organization as a Web Developer and Digital Media Manager, where I was responsible for website development, content management systems, and workflow automation.

In web development, I work daily with PHP, Laravel, Filament, MySQL, and Tailwind CSS to build robust, multilingual digital systems. Beyond web development, I also work on programming in Python, automating systems with AI, and network security.

Education

Bachelor's Degree in Computer Science

University of Sulaimani College of basic Education | 2022 – 2026

- Key Coursework: Object-Oriented Programming (OOP), Database Management Systems, Computer Networks, Web Development, Artificial Intelligence Basics.

Graduation Project: Online Flower Shop E-Commerce Platform

- Built a fully functional online flower store using PHP, Tailwind CSS, Vanilla JavaScript, and MySQL.
- Designed responsive user interfaces and a structured relational database to manage inventory and customer orders.

Work Experience

Media Staff — Lvin Media Organization

- Built and managed the organization's website.
- Managed social media accounts and edited/curated news content.

System Developer & Data Manager — Freelance, Sulaimani Directorate of Education

- Developed a smart system for the Ministry of Education / Sulaimani Directorate of Education warehouses.
- Built a smart, automated system for the warehouses of the Western Sulaimani Directorate of Education for textbook distribution.
- Managed and tracked textbook-distribution data throughout the project, working as a freelancer.
